REPORT AND COMMENTS ON INTERNSHIP.

PhD student's name: YERSHAT SAPAZHANOV

Dear Sir/Madam,

Yershat Sapazhanov was offered to participate in the Internship at the Centre for Mathematical Sciences, University Malaysia Pahang (UMP) for 4 weeks from 3-rd February 2020 until 28-th February 2020. During his internship he showed that he has achieved the critical competencies in teaching and research that are required in the field of study.

He proved himself as a very creative young scholar with several research papers. Some of his research findings include comparison of student's attitude toward mathematics and motivations to learning. He has also proved to be a talented, effective and extremely well-liked academician. In just a short time after joining us, he has come to be a valuable and stimulating colleague. He has been active in our research programs and has worked unusually well both with our staff in the faculty.

He has very good work ethics and follows direction well and he was a quick learner and was able to jump in very quickly. He showed a lot of imitation in wanting to learn and completed all of the tasks given him in a timely manner. He was a pleasure to work with; he was very organized and grasped our system very quickly. He will succeed in whatever ventures he embarks on.

He has actively pursued research in teams with colleagues and established a strong network with scientists abroad, as well as publishing research findings in diverse areas of Mathematical education with different methods such as active learning, cooperative learning, developing pupils creativity. He always keeps open communication with his colleagues and is highly valued by his peers and students.

I am consistently impressed with his attitude and performance during his internship in the Centre of Mathematical Sciences. He has shown his full commitment in education. I verily believe that he can serve as a skilled, innovative professional and can significantly contribute to elevate the research status of the university.

I believe that Yershat Sapazhanov will become a real intellectual force in Suleyman Demirel University also and will be a significant contributor to its future success.

He is highly intelligent, very well organized, and motivated to work on varied assignments. His duties at University Malaysia Pahang (UMP) have included research on assigned topics, technical writing, professional communication, participation in workshop on Introductions of RASCH Model, attending weekly seminars of the Faculty of Industrial Science and Technology of the University Malaysia Pahang (UMP), delivery a talk on current research outputs, discussion meetings with the faculty members. During his internship he visited the Engineering Faculty of International Islamic University Malaysia (IIUM). In IIUM he attended course on Time Series and research seminars. In his research he deals with statistical data and it was very important and useful to attend RASCH Model workshop and Time Series course.

He has excelled with every assignment. He proved to be a very reliable intern. His initiative to learn about teaching processes was commendable. He is a pleasure to work with and is very diligent, responsible.

I would like to recommend him to work more on his ability to communicate ideas and initiatives when taking part in research seminars, meetings and discussions. This will help him to reach excellence in teaching and research.

I am very satisfied with his overall performance.
