Rating of the educational program:

Independent Agency for quality assurance in education – 5/7 (2021)

«Atameken» –59/62 (2020)

Professional standards for the development of an educational program: Developed on the basis of the NQF and ORC, as well as taking into account the proposals of employers

1.2 Location I. Zhansugurov in ZhU in the system of higher and postgraduate education of the Republic of Kazakhstan

Zhetysu University named after Ilyas Zhansugurov is a large regional multidisciplinary university of the Almaty region, providing three-stage training (bachelor's, master's and PhD) in a wide range of specialties.

Mission: Training of competitive personnel on the basis of universal values that meet the needs of the socio-economic development of the country.

Strategic goal:

1. Ensuring high-quality training of competitive personnel;
2. Modernization of the content of higher and postgraduate education in the context of global trends.

The university's positions in national and international rankings:

- 7th place in the national ranking of multidisciplinary universities of the Republic of Kazakhstan - 2021;
- TOP-241-250 best universities of developing Europe and Central Asia in the regional ranking of QS World University Rankings: Emerging Europe and Central Asia 2021;
- 6th place among 95 universities of the Republic of Kazakhstan in the ARES rating;
- according to the results of the independent rating Atameken 2020, 7 bachelor's degree programs were included in the top ten programs of universities in Kazakhstan.

1.3 Profile of the educational program

Rationale: As our society moves along the path of market reforms and the creation of the economic foundations of a truly democratic society, there is an urgent need not only for lawyers, but for lawyers with profound special knowledge in civil and criminal law relations.

Improving investment activities, the rapid development of the sphere of intellectual activity, the expansion of forensic mediation methods of resolving economic, civil and criminal disputes, the involvement of new civil rights objects in the turnover, the improvement and development of the tax system, the prevention and prevention of crime require future specialists in-depth knowledge in each areas.

Labor market research in accordance with the economy demands: in 2021, despite the oversaturation of personnel on the Jurisprudence educational program in the labor market, this program does not experience any difficulties in relevance and necessity. In connection with the demands of the economy today, the truly legal personnel of both broad and narrow profile are needed for the labor market under the Jurisprudence educational program.

The purpose of the educational program: Qualitative training of qualified lawyers with a high level of legal culture and legal awareness, fundamental knowledge and professional competences in the development and implementation of legal norms, ensuring law and order, legal training and education.

2.2 Information about disciplines

№	Name of discipline	Short description of the discipline (30-50 words)	Number of credits	Formed learning
---	--------------------	---	-------------------	-----------------

				outcomes (codes)
Cycle of general educational disciplines <i>Compulsory component</i>				
1	Modern history of Kazakhstan	Deals with the main stages and features of the historical process in Kazakhstan at the present stage. Studies the main stages of independence and development of Kazakhstan's statehood in the context of the world process. Traces political and economic reforms on the path of independence. Reveals the main directions of Kazakhstan's foreign policy at the present stage	5	LO 1
2	Philosophy	Deals with the main stages of development of world and Kazakh philosophical thought and worldview trends. It studies the General theoretical problems of being and consciousness, describes the experience of world philosophical thought in the study of universal problems of worldview. It is aimed at developing holistic views of the world and understanding the reality of the modern era. Reveals the basic philosophical concepts, categories and methods of philosophical knowledge	5	LO 1
3	Information and communication technology (in English)	Studies modern methods and means of professional communication, carried out by means of information technologies for search, collection, storage, processing and dissemination of information. Develops skills in working with databases, table processors, e-technologies, Smart and cloud technologies	5	LO 1 LO 8
4	Social and Political knowledge module (sociology, cultural studies, political science, psychology)	It contains socio-political and psychological knowledge, reflecting the laws, mechanisms and facts necessary for the knowledge of the depth of objective and subjective processes of development of society and man. Interaction between scientific disciplines - sociology, cultural studies, political science, psychology, is based on the principles of information complementarity, integration and methodological integrity of research approaches	8	LO 1
5	Kazakh (Russian) language	It contains the classification of types of texts. It studies the vocabulary, morphology and syntax of the Kazakh (Russian) language. It is aimed at mastering lexical topics related to various spheres of life and activity of society, in accordance with the level of language proficiency. Reveals the culture of speech and communication	10	LO 1
6	Foreign language	Aimed at the development of levels A2, B1, B2 (pan-European scale of foreign language proficiency) in accordance with the adapted national level model of teaching languages of the trinity, contains modern trends in learning and practical knowledge of foreign languages in	10	LO 1

		everyday communication and professional activities		
7	Physical training	Studies the features of physical culture and sports. Reveals the main forms of physical culture in the educational and extracurricular time. It is aimed at the formation of a healthy lifestyle, personality of the student, his physical perfection and self-regulation	8	LO 3
Cycle of general education disciplines University component/ Component of choice				
8	The module of knowledge in the field of social sciences (Basics of Economics and entrepreneurship, Ecology and life safety basics, Ilyastanu)	Focused on the formation of students' complex ideas about the regularities of the functioning of the economy, obtaining a business education, reveals the features of creating and successfully running your own business. Deals with the basic laws of functioning of living organisms, ecosystems of different levels of organization, the biosphere as a whole and their stability. Contains theoretical bases of safety of activity; legal, normative-technical and organizational bases of safety of activity and methods of increase of safety of technical means and technological processes. Deals with the biography of Ilyas Zhansugurov, his place in the Kazakh literary science. Studies his contribution to the formation of artistic principles of Russian literature.	5	LO 2
Cycle of basic disciplines University component				
9	Theory of State and Law and the Basics of the Constitutional Legislation of the Republic of Kazakhstan	The theory of state and law is a methodological science, which develops the most important theoretical provisions in jurisprudence, familiarizing students with modern knowledge about state and legal phenomena. Objectives of the course: to highlight the peculiarities of the state structure, to understand the branches of government of the Republic of Kazakhstan - to distinguish between the legislative, executive and judicial branches of government.	8	LO 4
10	Civil law (general part)	This discipline is an obligatory component of the module "Civil Law Relations". Civil law is one of the main, fundamental academic disciplines studied in law schools. With the transition to a market economy and a radical reform of the socio-economic relations of our society, the role of civil law as a regulator of commodity-money relations and other relations developing in the market economy sharply increases.	6	LO 6
11	Criminal law (general part)	This academic discipline involves the study of the theoretical provisions of the science of criminal law of the general part, evolving in accordance with the needs of a democratic legal state and criminal legislation and the practice of its application.	6	LO 6

		Therefore, their content is entirely based on the conceptual content of the current criminal legislation and the state's criminal policy, which is the most important link in legal policy in general.		
12	Administrative law	Administrative law is one of the fundamental branches of the legal system. In particular, this course will allow revising the institutions of administrative law in accordance with the new tasks of sovereign Kazakhstan. Expected results: enrichment of knowledge about the basic principles, categories and provisions of administrative law, correct orientation in the current legislation;	5	LO 6
13	Civil law (special part)	A special part of civil law includes certain types of obligations, non-contractual obligations, intellectual property law, inheritance law and international law. This approach to systematization allows you to reveal the content of civil law matter. Civil law is a branch of law that regulates the main groups of economic relations.	6	LO 6

Students with special educational needs are provided with printed and (or) electronic educational resources in forms adapted to limit their health.

Individual support is provided or the social adaptation of students with special educational needs, which is continuous and comprehensive. Support of students with special educational needs is determined by the goals, content and methods of the educational process, aimed at preventing emerging problems of educational adaptation, preventing the timely formation of the necessary competencies.

3. PROVISION OF THE EDUCATIONAL PROGRAM

3.1 Human Resources

The educational program is equipped with pedagogical and teaching personnel in accordance with paragraphs 64-65 of the Order of the Minister of Education and Science of the Republic of Kazakhstan dated June 17, 2015 No. 391 «On approval of qualification requirements for educational activities and a list of documents confirming compliance with them».

3.2 Material and technical base

The University has 3 academic buildings, an educational and laboratory complex, a library, a military department, 3 dormitories, an educational and recreational training ground «Kulager» on Lake Balkhash, a sports and educational training ground «Karlygash», a stadium for 1000 seats.

The educational process is implemented in 165 classrooms, including 30 educational and scientific laboratories, 31 computer classes, 4 language laboratories, 6 reading rooms with 306 seats, where 65 interactive whiteboards are installed. The classrooms are equipped with modern equipment and inventory and meet the requirements of the implementation of educational programs, sanitary-epidemiological and construction norms and rules. All computers of the university are provided with free access to the global Internet, the speed of which is 300 MB/s. Free WiFi access with a speed of 100MB / s is provided.

3.3 Information and library support

The total book fund of the university library in the 2021-2022 academic year amounted to 566369 copies, including 223678 copies in Kazakh, 322398 copies in Russian, 20293 copies in other languages. Also in the library fund there are electronic textbooks in the amount of 5646 copies.

To ensure the educational and scientific process of the university, as well as to meet the needs of students, teaching staff and university staff, the library fund is annually updated with new publications. To obtain additional knowledge, all the content of the printed publications of the university library has been translated into digital format and is available to students through personal accounts in the Smart ZhetySU program.

The university library provides access to scientific electronic publications Web of Science, to full-text articles of journals published by Elsevier, Scopus, databases Polpred.com. The library also provides access to domestic databases – the Republican Interuniversity Electronic Library (Association of Universities of the Republic of Kazakhstan), the Unified Electronic Library (NCGNTE), KazNEB, Epigraph, Aknurpress, to its own electronic database, the Library Fund of ZHU.

The university has introduced and is improving distance education technologies that provide an opportunity for school and college graduates, civil servants, military personnel, people with disabilities and the unemployed to receive education and self-study. Distance learning technologies are used in relation to students in educational programs with a reduced period of study on the basis of technical and professional, post-secondary and higher education.

To provide students with educational and methodological materials in all disciplines of the curriculum, teachers of the departments have developed electronic educational and methodological support. Students in accordance with an individual curriculum have access to the necessary educational and methodological information through the Smart ZhetySU educational portal. Electronic educational and methodological support includes a digital format of lecture and practical material, video lectures, methodological recommendations for completing tasks, control and measuring materials, electronic textbooks, etc.

One of the important directions of the organization of the university's activity processes is the introduction of innovative information technologies. The university has a well-developed IT infrastructure, including structured regulatory, educational, scientific, reference and other information. The Department of Information Systems Development has created the digital university "Smart ZhetySU". The unified information system includes information software complexes, software aimed at digitalization, automation, optimization of the main processes of the university's activities.

3.4 Social resources

For those who want to improve their qualifications or get additional education, the university has a Center for Advanced Training and Additional Education. On the basis of the center, university students can undergo free language training in English and prepare for the exam to confirm the international level of English language proficiency – IELTS.

To develop the entrepreneurial competencies of students and young scientists, the University has a department of science and commercialization of scientific projects, a Startup Academy. The Startup Academy provides all the necessary infrastructure for the youth of the Almaty region to develop innovative and entrepreneurial activities and increase the number of small and medium-sized businesses. The Academy conducts training trainings and seminars, is engaged in the purposeful search, selection and development of startup projects, as well as consulting support on the development of startups and measures of state support for entrepreneurship, organization of mentoring, providing expert support, conducting grant competitions.

In their free time, students can study for free in sports halls and in sections for several sports. Active work in this direction is carried out by the Sports Club of the university, which is engaged in the formation and promotion of the values of a healthy lifestyle, combining students into teams to demonstrate their needs and abilities in a freely chosen sport, organizing and conducting physical culture, sports and wellness events, organizing youth participation in sports competitions of various levels.

The sports base of the university is a multifunctional stadium with a standard football field, with sectors for long jumps, throwing grenades and running tracks, boxing, gymnastics, wrestling halls and a gym equipped with modern sports equipment.

The University has created favorable conditions for the formation of competencies of social interaction, an active life position, civic consciousness, self-organization and self-government, of a system-activity nature.

The Department for Educational and Social Work and the Youth Center are engaged in the development of creative activity of students in the socio-cultural environment of the University. In order to reveal the versatile creative abilities of students, the university operates: the Department of the Assembly of Peoples of Kazakhstan; dance and vocal-instrumental ensembles, student theater, debaters' club, volunteer clubs, KVN teams, literary, intellectual clubs, youth wing "Zhas Otan", labor association "Zhasyl El", association of public police assistants "Zhas kyran", military-patriotic club "Erlik", etc.
