5	Economics and Entrepreneurship	competencies, and fundamental knowledge in economics and financial literacy required for making informed managerial and economic decisions. The course focuses on the fundamentals of economic theory, entrepreneurship, legal regulation of entrepreneurial activity, financial planning, assessment of entrepreneurial risks, development and analysis of business projects, as well as the application of methods for analysing and researching socio-economic processes.	GED
6	Civil Law (Special Part)	Purpose – developing students’ advanced theoretical knowledge of the doctrinal foundations of the special part of civil law and the comprehensive system of legal regulation of specific types of property and non-property relations. The course covers individual types of obligations (sale and purchase, lease, contract for work, transportation, storage), tort obligations, intellectual property relations, and the specifics of inheritance law.	BD
7	Civil Law (General Part)	Purpose – developing students’ systematic knowledge of the general provisions of civil law, its principles, and the theoretical foundations of regulating civil legal relations. The course covers subjects and objects of civil law, transactions, the institution of representation, property rights, and general provisions of the law of obligations.	BD
8	Administrative Law	Purpose – developing students’ advanced systematic knowledge of the doctrinal foundations of administrative law and the mechanisms of administrative-legal regulation in public administration. The course covers the legal status of executive authorities, forms and methods of public administration, administrative procedures, elements of administrative offenses, and the institution of administrative liability.	BD
9	Administrative Procedural and Process-Related Law	Purpose – developing students’ systematic knowledge of the theoretical foundations of administrative procedural law and the principles of administrative justice proceedings. The course covers the procedure for resolving public-law disputes, administrative procedures, administrative court proceedings, the rights and obligations of parties, and mechanisms of administrative justice.	BD
10	Labor Law	Purpose – developing students’ systematic knowledge of the theoretical foundations of labor law and the principles of legal regulation of labor relations. The course covers the employment contract, working and rest time, wages, labor discipline, occupational safety, and the procedure for resolving labor disputes.	BD
11	Fundamentals of Artificial Intelligence	The discipline is aimed at studying the basic concepts, methods and algorithms that underlie the creation and application of artificial intelligence. As part of this course, students will learn the theoretical foundations of machine learning, neural networks, natural language processing algorithms, and computer vision. They will also get acquainted with the ethical, social and legal aspects of the application of artificial intelligence in various areas of life.	BD
12	Criminalistics	Purpose – developing students’ advanced systematic knowledge of the theoretical foundations of criminalistics and the system of scientific-technical tools and tactical methods used in crime detection, investigation, and prevention. The course covers theories of criminalistic identification and diagnostics, tactics of investigative actions, methods of detecting, recording, and examining traces, and the use of forensic technical tools.	BD
13	Criminology	Purpose – developing students’ systematic knowledge of the emergence, development, and causal relationships of crime. The course covers types and structure of crime, the personality of the offender, determinants of crime, the system of crime prevention, and methods of criminological research.	BD
14	Constitutional Law of the Republic of Kazakhstan	Purpose – developing students’ systematic knowledge of the theoretical foundations, principles, and institutions of the Constitutional Law of the Republic of Kazakhstan. The course covers the foundations of the constitutional system of the Republic of Kazakhstan, the legal status of individuals and citizens, constitutional rights and freedoms, the system of state authorities, as well as the foundations of local government and self-government.	BD
